Chancellor's Message

It is my privilege to forward the University Annual Report for the Year 2021-22. The report documents the intensive hard work put together by the university faculty, administrative staff and students in pursuit of academic and research endeavors and achievements.

I highly appreciate the devotion, dedication and hard work of the University academic, administrative officers and the Prof. Dr. Jehan Bakht, Vice Chancellor team who put their earnest hard work in the preparation of this report.

Haji Ghulam Ali

Governor Khyber Pakhtunkhwa/
Chancellor, The University of Agriculture, Peshawar

Vice Chancellor's Message

Agriculture is the backbone of our country's economy. It provide employment to more than 38 % of labor force in rural area of Pakistan and 65-70 % of the population are directly dependent for Agriculture Sector for livelihood. In addition it also contribute 20 % to country GDP. Over the years, the problem of agriculture sector in Pakistan and globally has become challenging like feeding rapidly increasing population, ensuring food security in changing climate and provision of nutritionally balance food at affordable cost, enhancing productivity while managing sustainable use of natural resources, low adaptation of improved technologies and production gap in major crops between the farmer fields in Pakistan and research farm.

In the rapid changing scenario of technology transformation and knowledge generation and its accessibility through digital click, the role of university is becoming diversified of not only providing training to future generations but also addressing the local and global problems through quality research and knowledge generation. The accomplishment of the university during the reported period reveal the active role not only in teaching and research but also in knowledge dissemination through outreach program to the farming community. The university has effectively highlighted the agriculture sector both globally as well as at national level issue through national and international conferences /seminars with relevant academia and field experts.

I commend the efforts of the University Administration, Faculty, Students and Researchers for their important role in training of future leaders of our society. The University Annual reports and activities is truly reflecting of its vision and mission.

I wish them a better future ahead.

Prof. Dr. Jehan Bakht

Full brightfellow

Vice Chancellor

Executive Summary

This summary provides an overview of the operations, achievements and development of the University during 2021-22. In the reporting year, the University has continued to be blessed with energetic leadership and carry on the journey of progress and advancement. In spite of financial constraints, it has attained better governance with support of the statutory bodies, academic progress, and development of new infrastructure and continued smooth functioning by effectively engaged faculty, researchers, staff, and students. This has allowed the university to leap forward in pursuit of its vision and mission. Significant landmark achievements are summarised here;

- i. In the academic year 2021-22, the University produced 62 PhDs, 50 M. Phil, 487 M.Sc. (Hons) Agriculture and 459 B.Sc. (Hons) Agriculture. The University also produced 804 graduates in other BS & MBA programmes on self support basis including 71 postgraduates in MS Management Science & Computer Science.
- ii. The faculty was facilitated in presenting their research in domestic and foreign conferences, and seminars. They completed and have been working on more than 141 research projects won through open competitions including 86 completed and 55 on-going research projects.
- iii. Based on their research and exploration, the faculty and researchers have published quality research papers in reputed national and international journals, books, and book chapters in books.
- iv. The University pursued and encouraged research collaboration with organizations and institutions of higher reputation and signed MoUs during the reporting year.
- v. The faculty and researchers have also been actively involved in the community services by engaging those in need of professional consultation regarding agriculture, livestock and other allied sciences. Like research dissemination through conferences, this year too, community interactions for improvement of the agriculture and general wellbeing of the farming community have been exercised. These activities also include short term trainings, consultancies and outreach activities on the farmers' fields.

- vi. The physical and technical infrastructure of the university continued to be enhanced and strengthened. Three ongoing developmental projects were being implemented, two funded from ADP and one from PSDP during 2021-22. This includes a mega developmental project titled: “*Establishment of Technology Development Centre (TDC) at the University of Agriculture, Peshawar*”. Similarly establishment of the independent University of Agriculture at Swat and reflection of Rs. 3000 million in the ADP for a new University is another landmark achievement. Another two ADP funded projects in merged districts for values addition and development of pocket area for tomato and onion.

- vii. Students were also facilitated through scholarships, and provision of healthy environment in hostels and on campus. They were also encouraged to participate in different co-curricular activities i.e. sports, dramas, debates, awareness sessions and other healthy activities organized by the University and other institutions.

About the University

Since its establishment in 1981, the University has been playing a vital role in imparting Agricultural education and conducting basic and applied agricultural research throughout the Province and disseminating the research findings among the farmers and general public through various initiatives. The graduates are serving in public and private sector organizations on key positions within Pakistan and abroad.

The University has six (06) Faculties, Twenty Three (23) teaching Departments, Three (04) Institutes and One (01) Centre and one Sub Campus at Mardan. The University offers Bachelor, Master, M.Phil. and PhD degrees in all disciplines of Agriculture, Animal Husbandry & Veterinary Sciences, Rural Development, Rural Sociology, Biotechnology, Management Sciences, Information Technology and Computer Sciences. All these academic programmes are run under the supervision of 395 highly qualified faculty out of which 180 hold Ph.D. degrees from leading Universities of international repute. Names of the Faculties, Departments, Institutes, Sub-Campus and Centre are given below:

Faculties, Institutions & Departments of the University:

- **Faculty of Crop Production Sciences**
 - Department of Agronomy
 - Department of Horticulture
 - Department of Soil & Environmental Sciences
 - Department of Agricultural Mechanization & Renewable Energy Technologies
 - Department of Water Resources Management
 - Department of Plant Breeding & Genetics
 - Institute of Biotechnology & Genetic Engineering

- **Faculty of Crop Protection Sciences**
 - Department of Plant Pathology
 - Department of Plant Protection
 - Department of Entomology
 - Department of Weed Science & Botany

- **Faculty of Nutrition Sciences**
 - Department of Food Science & Technology
 - Department of Agricultural Chemistry & Biochemistry
 - Department of Human Nutrition

- **Faculty of Animal Husbandry & Veterinary Sciences**
 - Department of Poultry Science
 - Department of Animal Nutrition
 - Department of Livestock Management, Breeding & Genetics
 - College of Veterinary Sciences

- **Faculty of Rural Social Sciences**
 - Department of Maths, Statistics, & Computer Science
 - Department of Islamic & Pakistan Studies
 - Department of Agricultural Extension Education & Communication
 - Department of Agricultural & Applied Economics
 - Department of Rural Sociology
 - Department of English
 - Institute of Development Studies

- **Faculty of Management & Computer Sciences**
 - Institute of Business & Management Science
 - Institute of Information Technology & Computer Sciences

- **Agricultural University Peshawar, Amir Muhammad Khan (AMK) Campus, Mardan**
- **Agricultural University Peshawar, Sub Campus, Swat**
- **Climate Change Centre (CCC)**

Research Journals

The University has three research Journals i.e.

- Sarhad Journal of Agriculture,
- Weed Science Journal of Pakistan
- Al-Azhar Journal

These journals publish valuable research outcomes and share them with wider scientific community across the globe. Research publications are considered hallmark of any R&D institution. The faculty has published research on different aspects of the agriculture, livestock, water and social sciences related issues in a variety of nationally and internationally recognized research journals.

Chapter-1

University Governance

The University of Agriculture, Peshawar, after the promulgation of Khyber Pakhtunkhwa Universities Act, 2012 (Amended 2016) reframed its Statutes 2016 and got it approved from the relevant statutory bodies of the University. Currently the University is governed under its newly approved Statutes through the following statutory bodies:

- i. The Senate
- ii. The Syndicate
- iii. The Academic Council

The composition of these authorities is complete and working under the Act. Additionally, the following authorities have been established as enshrined in the Universities Act to appropriately manage matters concerning the University academics, finances, students' affairs, merit-based selection of faculty and other staff.

- i. Selection Board
- ii. Finance & Planning Committee
- iii. Board of Faculties
- iv. Board of Studies
- v. Advanced Studies & Research Board
- vi. University Discipline Committee

The Senate

Senate has the power of general supervision over the University and shall hold the Vice-Chancellor and the Authorities accountable for all the functions of the University. The Senate shall have all powers of the University not expressly vested in an Authority or Officers by the Act and all other powers not expressly mentioned in the Act that are necessary for the performance of its functions. The 9th and 10th meetings of the Senate were held on June 21, 2022, and August 30, 2022, respectively.

The Syndicate

The Syndicate is an executive body of the University which exercises general supervision over the affairs and governance of the University subject to the provisions of the Khyber Pakhtunkhwa Universities Act 2012 and Statutes 2016. During 2021-22, six meetings were held as per the following schedule:

Syndicate Meetings 2021-2022

Meetings	Date
107 th meeting	June 09, 2021
108 th meeting	November 07, 2021
109 th (Special) Meeting	January 27, 2022
110 th meeting	April 03, 2022
111 th meeting	-d0-
112 th meeting	May 31, 2022

The Academic Council

The Academic Council is a principal academic body of the University mandated with to lay down proper standards of instruction, research and examinations and to regulate and promote the academic life of the University, Colleges and Institutions, subject to the provision of the Act and Statutes.

During 2021-22, following listed meetings were held:

Meetings	Date
45 th Meeting	September 22, 2021
46 th meeting	November 15, 2021
47 th meeting	May 20, 2022
48 th Meeting	September 16, 2022
49 th meeting	October 04, 2022
50 th meeting	October 19, 2022
51 st Meeting	November 21, 2022

The Board of Faculty

Functions of the Board of Faculty (BoF) include: to coordinate teaching and research work in the subjects assigned to the faculties and to scrutinise the recommendations of the Boards of Studies for further reporting to the Academic Council. The BoF besides looking into students scholars matters also perform such other functions as may be assigned to it.

Board of Studies

The Board of Studies have advisory role in all academic matters connected with the instructions, research, publications and examination in the subject(s) concerned. Additionally, the Board of Studies also proposes curricula and syllabi for all the degrees, diplomas and certificates courses in the subject(s) concerned.

Selection Board

The Selection Board is a recommending body with the mandate to consider all eligible applications for teaching and administrative positions. The Board provides equal opportunities to all applicants and recommendation/evaluation of the interviews is presented to the Syndicate for final decision. During the reporting period an important meeting of Selection Board (91st) was held during September 06-10, 2022.

Meetings	Date
89th meeting	Feburary 27 th , 2021
90th meetings	April 12-13, 2021
91st meeting	September 06-10, 2022

Advanced Studies & Research Board (ASRB)

The ASRB is an advisory and executing body on all matters connected with the promotion of Advanced Studies (postgraduate), publication and research in the University. It is also mandated to process post graduate curricula, dissertations evaluation reports, panels of papers setters and examiners for comprehensive (written and oral) examination considering recommendations made by the Board of Studies.

The Finance & Planning Committee (F&PC)

F&PC is mandated to advise on the annual statement of accounts, annual and revised budget estimates and to review periodically the financial position of the University. It advises the Syndicate on all matters relating to planning, development, finances, investment and accounts of the University. It also prepares short and long term academic development plans including staff and resource development.

Meetings detail during the reporting period is as under:

Meetings	Dates
80th meeting	November 18, 2021
81st meeting	May 16, 2022

Affiliation Committee

The Affiliation Committee is an advisory body for recommending affiliation of colleges/ institutes to the Syndicate after reviewing the infrastructure and other facilities required for imparting standard education.

University Discipline Committee

The Discipline Committee deals with all inter-institute cases of indiscipline in the University. It proposes regulations relating to the conduct of University students, maintenance of discipline and action for breach of discipline. The Committee is mandated to recommend suspension, expulsion or rustication of students, on the basis of inquiry conducted under the rules.

2	Poultry Science	7	6	250	64	19	2
3	Animal Nutrition						0
4	College of Veterinary Sciences	25	24	304	22	19	32

Faculty of Rural Social Sciences

The Faculty of Rural Social Sciences is one of the largest and leading faculties of the University offering wide range of courses in Rural Development, Rural Sociology, Islamic Studies, Agriculture Extension, Agriculture & Applied Economic. The faculty has also three supporting departments which fulfill the requirement of all the teaching departments in the field of basic and applied sciences including Mathematics, Statistics & Computer Sciences, Pakistan Studies and English. The faculty headed by Prof. Dr. Himayatullah Khan, who manages and supervises all the academic activities of the faculty.

Faculty of Management & Computer Sciences

The Faculty of Management & Computer Sciences is offering academic programmes in Business Management, Computer Sciences and Information Technology. The faculty consists of Institute of Business & Management Sciences (IBMS) and Institute of Computer Sciences & Information Technology (ICS/IT). Prof. Dr. Dawood Jan is leading the faculty as Dean.

Academic Achievements

List of Phds Produced During Fy 2021-22

S. No	Scholar Name & Reg. No.	Supervisor	Thesis Title	Year 2021-22
1	Ayyub Khan S/o Sultan Mehmood (94-Agr-U-4372)	Dr. Ghaffar Ali	Farmers' Perception of Soil Erosion and their Willingness to Pay for Conservation in the Northern Areas of Pakistan.	05-07-2021
2	Mohammad Ilyas Khan S/o Mohammad Younis Khan (81-Agr-U-51)	Dr. Ihsan Mabood Qazi	Development of Noodles from Blends of High and Low Amylose Rice Varieties Grown in Khyber Pakhtunkhwa.	12-07-2021
3	Ahmad Abrar Khan S/o Mukhtar Ahmad Shakeb (2007-Agr-U-15156)	Prof. Dr. Muhammad Idrees	Factors Affecting the Production of Stone Fruit Orchards in District Mansehra Khyber Pakhtunkhwa, Pakistan.	02-08-2021
4	Muhammad Sohail Khan S/o Muhammad Anwar Khan (95-Agr-U-4728)	Dr. Malik Inayatullah Jan	Problems in Rural Education Governance and Determinants of School Performance in Rural Islamabad.	02-08-2021
5	Arif Hussain S/o Zakir Hussain (2005-Agr-U-12438)	Dr. Malik Inayatullah Jan	Foreign Remittances and their Socio-Economic Effectes on Rural Populattion in in District Kurram.	02-08-2021
6	Maryam Tariq D/o Muhammad Tariq (2007-Agr-U-14892)	Prof. Dr. Shaukat Hussain	Genetic Analysis of Pakistani Landrace(s) of Wheat for Resistance to Yellow Rust Caused by puccinia Striformis Westend f.sp. <i>Tritic Eriksson</i> .	06-08-2021
7	Muhammad Izhar Shafi S/o Muhammad Shafi (2009-Agr-U-19282)	Prof. Dr. Muhammad Sharif	Effect of Humic Acid Coated Phosphatic Fertilizers Inoculated with Mycorrhiza on Yield and Phosphorus Uptake of Maize and Wheat in Calcareous Soil.	11-08-2021
8	Farzana Begum D/o Fazal Rahman (2006-Agr-U-13175)	Dr. Gohar Ayub	Producing Quality Okra Seed Through Nutritional and Crop Management Practices.	11-08-2021
9	Syed Muhammd Sulaiman S/o Syed Bakht Badshah (2007-Agr-U-15338)	Dr. Nazir Ahmad Khan	Optimizing the Nutritional Value of Wheat Fodder and Wheat Straw for Ruminant Livestock in Khyber Pakhtunkhwa: Exploiting the Genetic Diversity of Traditional and Noval Cultivars/Germplasm.	03-09-2021
10	Rabia Goher D/o Goher Rehman Chughtai (2003-Agr-U-10373)	Prof. Dr. Mohammad Akmal	Performance of Selected Wheat Varieties Induced to Short Term Stress During Growth and Development.	15-09-2021

S. No	Scholar Name & Reg. No.	Supervisor	Thesis Title	Year 2021-22
11	Sajid Ali S/o Inayat Ur Rahman (2008-Agr-U-16643)	Dr. Shahen Shah	Agronomic Biofortification with Zinc and Iron for the Improvement of Wheat Yield and Quality.	27-09-2021
12	Hashmatullah S/o Samiullah (2008-Agr-U-16712)	Dr. Naeem Khan	Integration of Eco-Friendly Weed Management approaches for Control of Weeds in Wheat Crops (<i>Triticum aestivum L.</i>).	27-09-2021
13	Ghulam Mohi-ud-Din Paracha S/o Nizam-ud-Din Paracha (98-Agr-U-5786)	Dr. Yasser Durrani	Development and Storage Study of Different Products Prepared from Peach and Persimmon Blended Pulp.	27-09-2021
14	Waqas S/o Inayat Ullah (2011-Agr-U-25421)	Dr. Intikhab Alam	Socioeconomic Effects of Road Traffic Injuries with Reference to Health Satisfaction Status in District Malakand Khyber Pakhtunkhwa, Pakistan.	27-09-2021
15	Ibadullah Jan S/o Pordal Khan (2011-Agr-U-25410)	Prof. Dr. Iqbal Munir	Molecular, Cellular and in Vivo Studies to Explore the Effect of Dosiflavone in Conditions Associated with Inflammation and Oxidative Stress.	04-10-2021
16	Alamgeer Khan S/o Zer Gul (2007-Agr-U-15410)	Dr. Intikhab Alam	Perception of Tribal People about the Merger of FATA with Khyber Pakhtunkhwa.	04-10-2021
17	Mohammad Alam S/o Suleman (2007-Agr-U-15277)	Dr. Naila Chand	Comparative Study on the Phenotypic and Genetic Parameters of Naked Neck, Phode Island Red, Black Australorp and Their Crosses.	04-10-2021
18	Muhammad Nisar S/o Muhammad Razaq (2013-Agr-U-29653)	Dr. Asad Ullah	Analysis of Sociological Factors Influencing Sugarcane Productivity in Central Valley of Khyber Pakhtunkhwa.	05-10-2021
19	Shawana Ahmad D/o Hussain Ahmad (2007-Agr-U-14898)	Prof. Dr. Asad Ali	Incidence, Characterization and Management of Viruses Infecting Cucurbit Crops in Khyber Pakhtunkhwa.	18-10-2021
20	Farida Bibi D/o Yar Badin (2005-Agr-U-12385)	Dr. Muhammad Sajid	Response of Tomato Crop to Various Concentrations of Plant Growth Regulators and Calcium Sources.	15-11-2021
21	Nadia Bostan D/o Gul Bostan (2007-Agr-U-14860)	Dr. Muhammad Sajid	Enhancing Fruit Quality and Crown Production of Strawberry Through Various Management Practices.	15-11-2021
22	Izaz Hussain S/o Said Usman (95-Agr-U-4958)	Dr. Ahmad Khan	Effect of Beneficial Microbes, Humic Acid and Farmyard Manure on Yield and Yield Components of Maize.	15-11-2021

S. No	Scholar Name & Reg. No.	Supervisor	Thesis Title	Year 2021-22
23	Gulzar Ullah S/o Hashim Gul (2007-Agr-U-15130)	Dr. Gohar Ayub	Dissecting the Heat Stress Responses and Effects on Morphology of Tomato Varieties Employing High Temperature Conditioning and Nutrient Management.	15-11-2021
24	Hafsa Naheed D/o Dr. Paigham Shah (2008-Agr-U-16928)	Prof. Dr. Hidayat-Ur-Rahman	Genotype X Environment Interaction and Molecular Characterization of Exotic Bread Wheat Lines.	15-11-2021
25	Zainab Iftikhar D/o Muhammad Iftikhar (2009-Agr-U-19656)	Dr. Sajid Ali	Diversity in Chinese Wheat Hybrids for Yield and Disease Resistance Through Molecular Markers and Field Testing.	22-11-2021
26	Ayaz Ahmed S/O Abdur Rauf (2005-Agr-U-12326)	Prof. Dr. Muhammad Zulfiqar	Effect of Joint Forest Management on Livelihood of Local Communities and Forest Conditions in Khyber Pakhtunkhwa.	22-11-2021
27	Iftikhar Jan S/o Tila Muhammad (2008-Agr-U-16781)	Dr. Sahib Alam	Biocontrol of Aflatoxin Production in Maize Through Non-Toxigenic Strains of <i>Aspergillus Flavus</i> .	22-11-2021
28	Inyatullah Khan S/o Nadir Khan (91-Agr-U-3870)	Dr. Inamullah	Enhancing Maize Productivity Through Management of Planting Methods, Phosphorus Levels and Arbuscular Mycorrhizal Fungi (AMF).	26-11-2021
29	Muhammad Usman S/o Arif Ullah (2004-Agr-U-11201)	Dr. Maqsood Shah	Taxonomic Study of Subfamily Pimplinae (<i>Hymenoptera: Ichneumonidae</i>) in Different Agro-Ecological Zones of Khyber Pakhtunkhwa-Pakistan.	26-11-2021
30	Ijaz Ahmad S/o Abdul Nazir (2008-Agr-U-16687)	Dr. Bakhtiar Gul	Effect of Various Weed Densities on the Productivity of Wheat.	01-12-2021
31	Sana Javeid D/o Ch. Javeid Anjum (2006-Agr-U-13233)	Prof. Dr. Khalid Nawab	Impact of Apple Orchards Development Through Extension Services on Poverty Reduction in Azad Jammu and Kashmir.	13-12-2021
32	Rahmat Gul S/o Adil Muhammad (2005-Agr-U-12323)	Dr. Imran Khan	Effect of Islamic Fasting Combined with Dietary Advice on Biomarkers of Inflammation and Cardiovascular Health.	20-12-2021
33	Summara Rafiq D/o Muhammad Rafiq Abasi (2006-Agr-U-13327)	Prof. Dr. Khalid Nawab	Impact of Dairy Technology Adoption on the Levelihood of Rural Milk Producers Through Extension Services in Azad Jammu and Kashmir.	21-12-2021

S. No	Scholar Name & Reg. No.	Supervisor	Thesis Title	Year 2021-22
34	Abdul Hassan S/o Sher Hassan (97-Agr-U-5487)	Prof. Dr. Shahnaz Akhtar	Assessment of Rural Livelihood Assets of Farm Households in Central Khyber Pakhtunkhwa Province of Pakistan.	27-12-2021
35	Abu Bakar Sufyan S/o Abdul Saboor Bhutta (2017-Agr-U-37611)	Prof. Dr. Nazir Ahmad	Production of Fungal Treated Wheat Straw Using Different Pasteurization Techniques and Its Evaluation As a Part of Total Mixed Ration on Production Performance in Lactating Holstein Cows.	03-01-2022
36	Muhammad Mehran Anjum S/o Amir Nawab (2012-Agr-U-27365)	Prof. Dr. Muhammad Arif	Optimizing Sowing Windows for Wheat Hybrid Lines under Varying Irrigation Regimes.	03-01-2022
37	Bashir Muhammad S/o Muhammad Said (2010-Agr-U-23545)	Prof. Dr. Mussawar Shah	The Role of Accountability in Curbing Corruption with Reference to Rural Uplift in Peshawar, Khyber Pakhtunkhwa, Pakistan.	04-01-2022
38	Waqar Ahmad S/o Falak Sher (2010-Agr-U-23300)	Prof. Dr. Mussawar Shah	Analysis of Institutional Intra-Faith Disintegration and Its Revival to Social Reintegration in District Hangu Pakistan.	05-01-2022
39	Rasheed Akbar S/o Fazal Akbar (2010-Agr-U-21807)	Prof. Dr. Imtiaz Ali Khan	Exploiting Host Preference and Botanicals for the Management of Bruchid Beetle (<i>Callosobruchus Maculatus</i>) FAB. (<i>Bruchidae: Coleoptera</i>).	17-01-2022
40	Mazhar Ullah S/o Ihsan Ullah (2009-Agr-U-19654)	Dr. Mohammad Sayyar Khan Kazi	Transformation of Sugarcane (<i>Saccharum officinarum L.</i>) with the <i>Oryza sativa</i> Vacuolar Pyrophosphatase (OVPI) Gene for Improved Salt Stress Tolerance.	18-01-2022
41	Nadia Farooq D/o Muhammad Farooq (2009-Agr-U-19207)	Dr. Asad Ullah	Analysis of Intrinsic, Interpersonal and Extrinsic Factors Affecting Youth Attitude Towards Agricultural Occupations at District Mardan Khyber Pakhtunkhwa.	03-02-2022
42	Sarir Ahmad S/o Dr. Nisar Muhammad (2009-Agr-U-19332)	Prof. Dr. Ahmad-Ur-Rahman Saljoqi	Management of Whitefly, <i>Bemisia tabaci</i> (Gennadius.) (<i>Hemiptera: Aleyrodidae</i>) and Moldecular Detection of Begomovirus disease in Okra Crop.	03-02-2022
43	Momin Khan S/o Muzamin Khan (2007-Agr-U-15272)	Dr. Naila Chand	Assessment of Maggot Meal as Substitute of Soya Bean Meal in the Ration of Meat and Egg Type Birds.	07-03-2022
44	Muhammad Najmus Saqib S/o Zahidullah (2007-Agr-U-15290)	Prof. Dr. Muhammad Subhan Qureshi	Stress Factors affecting Sustainable Dairy Farming and Improvement Strategies for District Peshawar.	10-03-2022

S. No	Scholar Name & Reg. No.	Supervisor	Thesis Title	Year 2021-22
45	Muhammad Asad Jan S/o Hidayat Shah (2007-Agr-U-15432)	Dr. Bushra Hassan Jan	Analysis of Dispute Resolution Council's Effectiveness in Rural Areas of District Mardan-Khyber Pakhtunkhwa-Pakistan.	16-03-2022
46	Mian Muhammad Arif S/o Mian Zahir Shah (2008-Agr-U-17329)	Dr. Malik Muhammad Shafi	Input-Use Efficiency and Profitability in Commercial Broiler Poultry Farming in Peshawar Valley of Khyber Pakhtunkhwa.	17-03-2022
47	Alamzeb Khan S/o Jehanzeb Khan (2007-Agr-U-14886)	Dr. Naushad Khan	Causes of Militancy and Its Effect on Education in District Mohmand of Khyber Pakhtunkhwa.	18-03-2022
48	Muhammad Yasin S/o Khan Bahadar PIASA, Islamabad (2000-Agr-U-6605)	Dr. Muhammad Ramzan Khan	Sequence and Expression Analyses of Shattering Cascade Genes in Canola (<i>Brassica napus L.</i>).	31-03-2022
49	Nawab Ali S/o Muhammad Amir Khan (2012-Agr-U-26925)	Prof. Dr. Mohammad Akmal	Economizing Nitrogen for Wheat Growth, Yield and Quality Under Water Regimes.	01-04-2022
50	Reema Zia D/o Ziaul Haq (2011-Agr-U-27573)	Prof. Dr. Noor P. Khan	Comparative Advantage and Government Intervention in Pakistan's Rice (Paddy) Sector: Implications for Farmer Income, Trade and Future Policy Options.	06-04-2022
51	Khadim Nabi S/o Fazal Rabi (2006-Agr-U-13357)	Dr. Malik Muhammad Shafi	Analysis of Livelihoods and Food Security Among Rural Households of Khyber Pakhtunkhwa.	13-04-2022
52	Maid Zaman S/o Muhammad Naseem (2013-Agr-U-29703)	Prof. Dr. Imtiaz Ali Khan	Morphometric, Distribution, Mapping and Molecular Analysis of Isoptera in Various Agro-Ecological Zones of Khyber Pakhtunkhwa.	10-05-2022
53	Almas Ashraf D/o Muhammad Ashraf Khan (2014-Agr-U-34257)	Dr. Muhammad Ramzan Khan	Structural and Functional Characterization of Deeper Rooting (DRO) Gene from Wheat (<i>Triticum aestivum L.</i>).	26-05-2022
54	Sadiq Hussain S/o Samin Jan (2010-Agr-U-22510)	Prof. Dr. Muhammad Sharif	Effect of Microbes and Vermicompost Applied With Different Phosphorus Levels on Yield and Phosphorus Uptake of Wheat and Maize..	30-06-2022
55	Abdul Majid Khan Dawar S/o Abdul Samad Khan Dawar (2008-Agr-U-16870)	Dr. Imtiaz Khan	Integration of Different Weed Management Approaches in Wheat Under Rainfed Conditions.	14-07-2022
56	Mushtaq Ahmad S/o Tahmeed Ullah (2008-Agr-U-16718)	Prof. Dr. Malik Inayatullah Jan	Socio-Economics Effects and Willingness-To-Pay for Micro Hydropower Schemes in District Shangla.	14-07-2022

S. No	Scholar Name & Reg. No.	Supervisor	Thesis Title	Year 2021-22
57	Muhammad Arafat S/o Muhammad Karim (2012-Agr-U-27692)	Prof. Dr. Munir Khan	Effects of Education on Poverty and Well-Being of Rural Households in District Hangu, Khyber Pakhtunkhwa.	18-07-2022
58	Noor Badshah S/o Zar Badshah (2014-Agr-U-31791)	Prof. Dr. Sohail Ahmad	Identification of Novel Mutations in the Autosomal Recessive Epileptic Families in Khyber Pakhtunkhwa.	27-07-2022
59	Noor Muhammad S/o Faqir Muhammad (2004-Agr-U-11150)	Prof. Dr. Shah Alam Khan	Studies Resistant Mechanism of Selected Canola Genotypes Against Aphid <i>Lipaphis. erysimi</i> Kalt. (Hemiptera: Aphididae) Through Conventional and Molecular Techniques.	27-07-2022
60	Huma Naqeeb D/o Mohammad Naqeeb Khan (2003-Agr-U-10334)	Dr. Zia ud Din	Nutritional – Psychosocial Determinants and Genetic Polymorphism Association With Breast Cancer: A Case-Control Study in Khyber Pakhtunkhwa, Pakistan.	11-8-2022
61	Muhammad Fawad S/o Noor Muhammad (2009-Agr-U-19329)	Prof. Dr. Muhammad Azim Khan	Intergrated Management of Parasitic Weed (<i>Orobancha</i> spp) and Associated Weeds in Tomato (<i>Solanum lycopersicum</i> Mill).	31-08-2022
62	Tasneem Shah D/o Dr. Zahir Shah (2011-Agr-U-23845)	Prof. Dr. Muhammad Tariq	Soil Microbial Dynamics and Crop Productivity As Influenced by Biochar Under Different Cropping Systems.	31-08-2022
63	Najmul Saqib S/o Dr. Shah Nazar Khan (2006-Agr-U-13177)	Prof. Dr. Himayatullah Khan	Role of Agroforestry Practices in Sustainable Rural Livelihoods in Khyber Pakhtunkhwa.	13-09-2022
64	Bibi Hajira D/o Fazli Ghani (2007-Agr-U-14934)	Dr. Imran Khan	Health Potential of Sorghum and Barley-Containing Bread: Targeting Biomarkers of Cardiometabolic Health.	21-09-2022
65	Noorul Wahab S/o Muhammad Zaman (86-Agr-U-2072)	Dr. Zia ud Din	Occupational Burnout Syndrome and Nutritional Psycho-Physiological Responses Among University Teachers.	10-10-2022
66	Irfanullah S/o Aqalmand Bacha (2008-Agr-U-16771)	Prof. Dr. Muhammad Sajid	Elicitation of Secondary Metabolites Production and Green Synthesis of Silver Nanoparticles in Adventitious Root Culture of <i>Indigofera Heterantha</i> .	18-10-2022
67	Ibadullah S/o Masaoood (2011-Agr-U-23888)	Prof. Dr. Dost Muhammad	Optimizing N: S Ratio for Higher Maize-Wheat Productivity and Nutrient Uptake Under Varying Fertility Management and Climatic Conditions.	31-10-2022

S. No	Scholar Name & Reg. No.	Supervisor	Thesis Title	Year 2021-22
68	Subhanuddin S/o Sikandar Khan (2006-Agr-U-13314)	Prof. Dr. Mansoor Khan Khattak	Comparison of Mechanical and Chemical Weed Control of Wheat- Maize Cropping System.	31-10-2022
69	Ziaul Islam S/o Amir Baz Khan (2006-Agr-U-13562)	Dr. Asad Sultan	Effect of Organic Acid Blend, Phyto- Essential Oils and Protease Enzyme Individually and in Combination on Broiler Production Performance, Gut Health and Nutrient Utilization.	10-11-2022
70	Ijaz Ahmad S/o Yar Khan (2009-Agr-U-19242)	Prof. Dr. Musharaf Ahmad	Status of Bacterial Spot Disease in Khyber Pakhtunkhwa, Its Eco- Friendly Management and Genetic Diversity of Isolates.	27-11-2022

Supervisory Committee

Ms Amara Saeed, PhD Scholar Department of Horticulture after successfully her PhD thesis with Supervisory Committee

Ms. Sana Naeem, PhD Scholar Department of Agricultural & Applied Economic after successfully defending her PhD thesis entitled “An Investigation of children involvement in Agricultural activities: Evidence from rural households of

district Mardan, Khyber Pakhtunkhwa”

Mr. Ayub Khan, PhD student of Prof. Dr. Ghaffar Ali, Department of Agricultural Economics & Applied Economics after successfully defending his PhD thesis entitled “Famers' perception of soil erosion and their willingness to pay for conservation in the northern areas of Pakistan

IBGE student with their teacher after thesis defense

Chapter -3

Research and Development

Agriculture is the backbone of Pakistan, its contribution to country GDP is approximately 24 %. The University of Agriculture through its research programme not only training the postgraduate research students in basic and applied research but also carry out basic and applied research that have national and global impacts. The faculty of the University applied to various competitive research grants through the Office of Research Innovation & Commercialization (ORIC) of the University. During 2021-22, ORIC submitted number of projects to various funding agencies including Higher Education Commission (HEC) program me through National Research Programme for the Universities, Pakistan Agricultural Research Council through Agricultural Linkages Programme (ALP) and Ministry of Science Technology through Pakistan Science Foundation (PSF). The University faculty and researchers won number of the research projects both from national and international competitive grants. The faculty wise list of various research endeavours of the University along with brief of selected research projects is given below:

Control experiment for management of strawberry viruses

Mix cropping of strawberry with vegetables.

Strawberry fruit

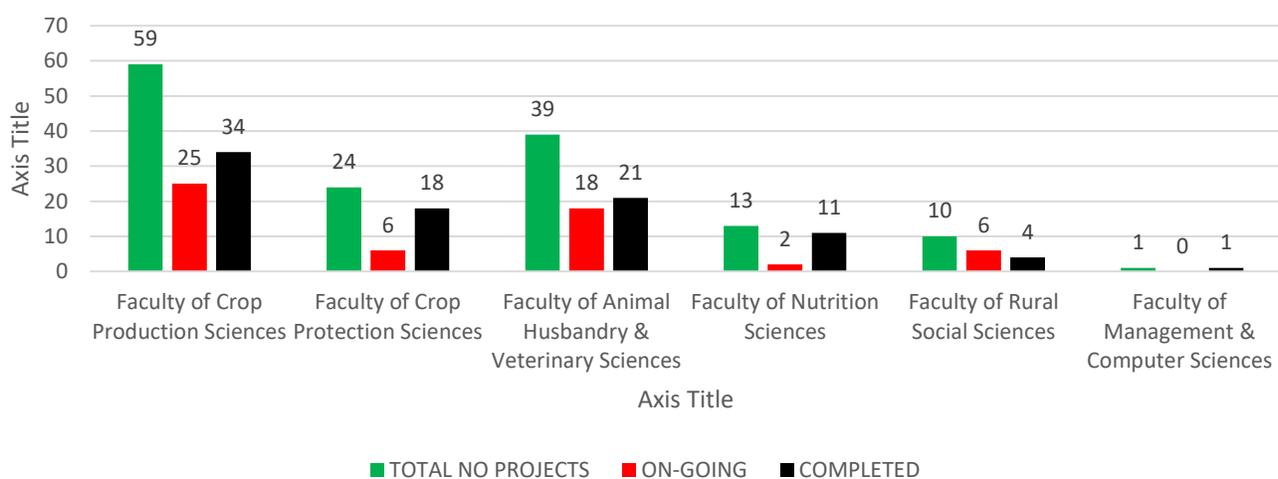

Strawberry plant showing virus symptoms

Research Projects by The Faculty

Faculty	Total No Projects	On-Going	Completed

UNIVERSITY RESEARCH PROJECTS

List of Research Projects by the Faculty

S.No	Title of Project	Principal Investigator	Funding Agency	Project Status	Amount
Faculty of Crop Production Sciences					
Agronomy Department					
1.	Phenolic compounds extraction, application on clovers to ensile for improved for age quality	Prof. Dr. M. Akmal	HEC	Completed	2.576 Million
2.	Enhance wheat production by grain N-enrichment through N-fertilizer management and intercropping under climate change scenario	Prof. Dr. M. Akmal	HEC	Completed	4.589 Million
3.	Building Soil Organic Matter (SOM) and its impact on N-dynamics and C-budget in cereal base cropping system.	Dr. Ahmad Khan	HEC	Completed	7.6 Million
4.	Improving phosphorous available, use efficiency and productivity through	Prof. Dr. M. Arif	HEC	On-going	2.6 Million

S.No	Title of Project	Principal Investigator	Funding Agency	Project Status	Amount
	biochar for sustainable cereal based cropping system.				
5.	Development of water efficient hybrid wheat for Pakistan and China	Prof. Dr. M. Arif	PSF	On-going	7.33 million
6.	'Climate smart' Agriculture for steering food security by fostering cropping intensity in seasonal gaps.	Prof. Dr. M. Arif	U.S. – Pakistan Centers for advanced studies in Agriculture and food security (USPCAS-AFS) University of Agriculture Faisalabad and University of California, Davis	Completed	3.5 million
7.	Capacity building of Farmers on Good Agriculture Practices and Good Handling practices in KP (Merged districts Kurram, Orakzai, South Waziristan & North Waziristan and adjoining districts	Prof. Dr. M. Arif	FAO, UN	Completed	0.6 million
8.	Dual purpose cereal management for forage and grain production for ensuring fodder availability in short fall period and food security for sustainable crop and production in the cereal and northern region of Khyber Pakhtunkhwa	Prof. Dr. M. Arif	HEC	On-going	5.05 million
9.	Phosphorus management effect using Arbuscular Mycorrhizal fungi application on wheat and subsequent maize productivity	Prof. Dr. Inamullah	HEC	On-going	0.0983 Million
10.	Enhancing Wheat Productivity and Zn biofertilization through zinc, compost and Zn-solubilizing bacteria management	Prof. Dr. Amanullah Jan	HEC	On-going	0.10 Million
11.	Transfer of modern production technology of field days and trainings.	Dr. Amanullah Khan	R&D Endowment Fund, UAP.	Completed	4.19 Million
Horticulture					
12.	"The effect of brassinosteroid and chitosan on the morphological and biochemical changes in tomato under drought stress	Dr. Imran Ahmad	HEC	On-going	1.783 Million
13.	Employing plant growth promoting bacteria in phytoremediation of foodborne pathogens and toxic metals from wastewater	Dr. Mehboob Alam	HEC	On-going	3.816 million

S.No	Title of Project	Principal Investigator	Funding Agency	Project Status	Amount
14.	Production of certified fruit plants at department of Horticulture	Dr Gohar Ayub	R& D Endowment Fund, UAP.	On-going	1.52 million
15.	Offseason Vegetable Production through tunnel technology	Dr Muhammad Sajid	R& D Endowment Fund, UAP.	On-going	1.300 million
Plant Breeding & Genetic					
16.	Molecular Based Genetics Divergence in Indigenous Common Bean of Himalaya Pakistan	Prof. Dr. Farhatullah	Agriculture Innovation Programme (AIP) of PARC	Completed	3.000 million
17.	Evaluation and Identification of High Yielding Winter Wheat Genotypes	Prof. Dr. Iftikhar Hussain Khalil	Agriculture Innovation Programme (AIP) of PARC	Completed	3.000 million
18.	Assessment Of Indigenously Developed Recombinant Inbred Lines in Rice for Commercial Cultivation In Khyber Pakhtunkhwa	Dr. Syed Mehar Ali Shah	HEC	Completed	2.630 million
19.	Genetic and Molecular Appraisal of Selected Chickpea (<i>Cicer Arietinum</i> L.) Genotypes Against Pod Borer (<i>Helicoverpa Armigera</i>) at Different Locations	Dr. Rozina Gul	HEC	Completed	2.168 million
20.	International Linkages of Pakistani Universities with Foreign Universities	Prof. Dr. Farhatullah	HEC	Completed	16.190 million
21.	Production of Modified Double Cross Maize Hybrids as Source of Low Cost Seed	Prof. Dr. Hidayat ur Rehman	HEC	Completed	1.712 million
22.	Development of Desi Sarsoon (<i>Brassica Compestris</i>) Varieties through Conventional and Modern Techniques	Prof. Dr. Farhatullah	HEC	Completed	1.007 million
23.	Developing Forage-Plus-Grain Winter Wheat Production system for the Northern Areas	Prof. Dr. Iftikhar Hussain Khalil	PARC	Completed	3.000 million
24.	Grain and Nutrient Production Potential of Maize-Bean intercropping in Mountain Agriculture	Prof. Dr. Ghulam Hassan	PSC	Completed	0.612 million
25.	Production of Double Haploids Wheat with Longer Coleoptile	Merit Prof. Dr. Fida Mohammad	PARC	Completed	1.859 Million
26.	Quantification of Maize Yield Losses From Leaf Blights and Improving Maize Populations for Grain Yield and Leaf Blight Resistance	Prof. Dr. Hidayat ur Rehman	PARC	Completed	2.173 Million
27.	Development of True Potato Seed as Seed Source for potato production in NWFP	Prof. Dr. Farhatullah	HEC	Completed	0.215 Million

S.No	Title of Project	Principal Investigator	Funding Agency	Project Status	Amount
28.	Collection and Characterization of Indigenous Brassica in Pakistan	Prof. Dr. Farhatullah	HEC	Completed	5.00 Million
29.	Development of New High Yielding Canola Quality Brassica Juncea variety	Prof. Dr. Raziuddin	HEC	Completed	0.2 Million
Institute Of Biotechnology & Genetic Engineerig					
30.	Development of Climate Resilient Sustainable Agriculture System through improved and healthier soil-plant microbes synergism	Prof Dr. Iqbal Munir	PSF	On-going	6.84 Million
31.	Marker Assisted Selection and DNA based genetic characterization of indigenous Beans, Pulses, Groundnuts and Medicinal herbs of Merged Areas of Khyber Pakhtunkhwa	Prof. Dr. Iqbal Munir	HEC	On-going	9.70 Million
32.	Discovering and Tailoring Glutathione peroxidase like Enzymes (GPXLs in Citrullus lantus	Dr. Safira Attacha	HEC	On-going	0.49 Million
33.	Characterization of dengue virus scrotypes among infected individuals of KP Pakistan	Dr. Najeeb Ullah Khan	HEC	Completed	0.50 Million
34.	Establishment of Experimental Animal Laboratory using Zebrafish as Model Species	Dr. Ibrahim	HEC	Completed	0.5 Million
35.	Genetic modification of <i>Brassica juncea</i> (Mustard) for Enhanced seed production.	Dr. Majid Khan	HEC	On-going	0.5 Million
36.	Analysis of genetic variations in soybean grown in Pakistan using molecular markers	Dr. Mudassar Nawaz Khan	HEC	Completed	0.5 Million
37.	Unraveling the action of interferon-tau in the development and maintenance of the bovine corpus luteum	Dr. Sher Hayat Khan	HEC	Completed	0.5 Million
38.	Exploring the role of retinoblastoma gene (<i>rbr-4</i>) in salinity stress in <i>Arabidopsis thaliana</i>	Dr. Muhammad Tayyab	HEC	Completed	0.5 Million
39.	<i>Puccinia striiformis</i> population genetic structure in tribal districts of Pakistan and its control through wheat genetic improvement using non-conventional germplasm resources	Dr. Sajid Ali	Wheat Productivity Enhancement Programme-USAID-CIMMYT	On-going	USD \$ 7000
40.	Disease status of wheat yellow rust and population genetic structure of <i>P. striiformis</i> at its centre of diversity on European wheat germplasm	Dr. Sajid Ali	Sub-grant of EU-H2020 project consortium RUSTWATCH	On-going	Euro € 120312
41.	Surveillance and Molecular Genotyping of Wheat Rust across	Dr. Sajid Ali	Agriculture Innovation	Completed	USD \$ 2,000

S.No	Title of Project	Principal Investigator	Funding Agency	Project Status	Amount
	FATA & PATA in relation to Pakistani P. striiformis population		Programme in Pakistan-USAID-CIMMYT		
42.	Molecular characterization of exotic and local Rice germplasm for drought tolerance under different climatic condition	Dr. Israr ud Din	HEC	Completed	0.5 Million
43.	Identification of interferon stimulatory marker for early diagnosis of the pregnancy in karri sheep	Dr. Ihtesham ul Haq	HEC	On-going	0.5 Million
44.	Identifying candidate gene in differentially expressed gestation lengths in different sheep breeds and climate change condition through transcriptome and epigenetic analysis	Prof. Dr. Sohail Ahmad & Mr. Ihtesham ul Haq	PARC	On-going	10 Million
45.	Genome-wide association studies utilizing next generation sequencing to identify potential genetic selection markers for economic traits in diverse sheep populations-)	Prof. Dr. Sohail Ahmad	HEC	On-going	11.5 Million
46.	Establishment of National Centre for Livestock Breeding, Genetics and Genomics (NCLBGAG) Sub-center AUP- 31 m PKR (HEC-Funded)	Prof. Dr. Sohail Ahmad	PSDP	On-going	31 Million
47.	Establishment of Incinerator in Institute Biotechnology an Genetic Engineering	Prof. Dr. Sohail Ahmad	ABM	Completed	2.5 Million
48.	Eco tilling for characterization of root systems of local rice germplasm with respect to drought stress resistance.	Dr. Afaq Ahmad Mian	HEC	On-going	3.2 Million
Agriculture Mechanization & RET					
49.	Development of prismatic solar collector for drying of fruits, vegetables, grains and feed heating	Prof. Dr. Mansoor Khan Khattak	PARC	Ongoing	7.23 Million
50.	Evaluation and comparison of a flat plate and parabolic trough solar collector for fruits and vegetables drying, water heating and water distillation purposes	Prof. Dr. Mansoor Khan Khattak	PARC	Completed	2.23 Million
51.	Development of efficient digester for production of purified biogas	Prof. Dr. Mansoor Khan Khattak	HEC	Completed	2.26 Million
Soil & Environmental Sciences					
52.	Production of P-enriched compost to enhance P use Efficiency, Compost quality and Crop Productivity	Dr. Dost Muhammad	R&D Endowment Fund, UAP	Completed	1.93 Million

S.No	Title of Project	Principal Investigator	Funding Agency	Project Status	Amount
53.	Enrichment of indigenously extracted commercially available HA with micronutrients for increasing Crop Production	Dr. Maria Mussarat	HEC	On-going	4.22 Million
54.	Development of Zinc oxide nanoparticles as novel Zinc Nano Fertilizer for sustainable agriculture	Dr. Ishaq Ahmad Mian	HEC	On-going	8.53 Million
55.	Research and Integration Demonstration on Water Saving High Efficiency and Eco-friendly for Dry land Agriculture	Dr. Ishaq Ahmad Mian	PSF	On-going	8.33 Million
56.	Bioconversion of hazardous Parthenium into nutrients enriched azolla and rock phosphate blended organic fertilizer	Prof. Dr. M. Sharif	HEC	On-going	10.393 Million
Faculty of Nutrition Sciences					
Food Science & Technology					
57.	Efficacy of hypobaric treatment in controlling postharvest diseases in peach fruit	Dr. Majid Suhail Hashmi	HEC	Completed	0.5 Million
58.	Integration of 1-MCP and hypobaric treatments to enhance the storage life of apple fruit	Dr. Majid Suhail Hashmi	HEC	Completed	9.2 Million
59.	Human Nutrition				
60.	Agricultural Productivity in relation to farmers nutritional status of Mardan	Dr. Zia ud Din	PARC	Completed	4.6 Million
61.	Determinants of malnutrition in the form of unhealthy practices during first 1000 days of life in KP Urban and Rural areas	Dr. Niamatullah	WHO	Completed	1.12 Million
62.	Effects of cookies incorporated with bay leaves on postprandial glycemia appetite and palatability	Dr. Imran Khan	HEC	On-going	0.460 Million
63.	Identification & extraction of phenolic compounds as antioxidants selected pomegranate varieties available in Peshawar fruit market	Dr. Humaira Wasila	HEC	On-going	0.460 Million
Agricultural Chemistry & Biochemistry					
64.	Isolation & Structural elucidation of the antimicrobial compounds effective against the Wilt Pathogens from <i>Penicillium</i> sp.	Dr. Zafar Iqbal	PSF	Completed	1.8 Million
65.	Quantifying the impact of flood on Nutrients export and concentration of waterborne pathogens in River Kabul	Dr. Muhammad Nauman Ahmad	HEC	Completed	3.6 Million
66.	Rapid identification and effective communication of waterborne hazards in emergencies	Dr. Muhammad Nauman Ahmad	Royal Society, UK	Completed	UK £10,000
67.	Deployment of mobile phone apps in feelitor management in small holder	Dr. Afia Zia	Royal Society, UK	Completed	UK £10,000

S.No	Title of Project	Principal Investigator	Funding Agency	Project Status	Amount
	fanest				
68.	Development of simple photo bioreactor for quality algal biomass and oil production	Dr. Saleem Ullah	PSF	Completed	4.3 Million
69.	Exploring non toxigenic fungal strains for control of aflatoxin contamination in maize crop	Dr. Sahib Alam	HEC	Completed	3.5 Million
70.	A Value Chain On Production of Food-Grade Nutraceuticals for Use as Natural Food Colorants.	Dr. Anwar Ali Shad	Directorate of Science & Technology (DoST), Government of Khyber Pakhtunkhwa.	Completed	0.480 Million
Faculty Of Crop Protection Sciences					
Plant Protection					
71.	Pest Risk Analysis and IPM of Maize in NWFP	Prof. Dr. Farman Ullah	HEC	Completed	1.256 Million
72.	Integrated Pest Management of Wheat Aphids	Prof. Dr. Farman Ullah	HEC	Completed	0.218 Million
73.	Insect Pests Management of Peach	Prof. Dr. Farman Ullah	HEC	Completed	0.219 Million
74.	Mass Production of Trichogramma-IPM of Maize Stem Borer	Prof. Dr. Farman Ullah	HEC	Completed	0.2 Million
75.	Management of Apple Mites in Swat.	Prof. Dr. Inamullah Khan	PARC	Completed	0.05 Million
76.	Date Palm Borer Management, in KPK	Prof. Dr. Inamullah Khan	TIPAN, USAID Project through The University of Agriculture, Peshawar-Pakistan	Completed	
77.	Infestation Level of Sugarcane Borers & Mass Production of <i>Trichogramma</i> (Hymenoptera: Trichogrammatidae) for their Management.	Prof. Dr. Ahmad-ur-Rahman Saljoqi	HEC	Completed	0.2 Million
78.	Integrated Management of Potato Aphids, <i>Myzus persicae</i> (Sulzer)	Prof. Dr. Ahmad-ur-Rahman Saljoqi	HEC	Completed	0.199 Million
79.	Management of Root-Knot and Cyst Nematodes in KPK.	Prof. Dr. Ahmad-ur-Rahman Saljoqi	TIPAN/US-Aid Project	Completed	0.05 Million
80.	Study of Cereal Aphids population dynamic species composition and their natural enemies in wheat crop and their effect on yield and yield components).	Prof. Dr. Shah Alam Khan	HEC	Completed	0.1 Million
Weed Science & Botany					
81.	Domestication, conservation and	Prof. Dr.	PARC	Completed	4.6 Million

S.No	Title of Project	Principal Investigator	Funding Agency	Project Status	Amount
	production of medicinal plants of higher altitude of Pakistan	Muhammad Azim Khan			
82.	Management studies of noxious weed (<i>Asphodelus tenuifolius</i> -Wild onion) in chickpea growing areas of District Karak, Khyber Pakhtunkhwa, Pakistan	Dr. Imtiaz Khan	PSF	On-going	3.1 Million
83.	Management of <i>Parthenium hysterophorus</i> by plant competition and insect herbivory in Khyber Pakhtunkhwa	Dr. Naeem Khan	HEC	On-going	3.3 Million
84.	Weed seed bank studies in wheat and maize growing areas of Khyber Pakhtunkhwa for sustainable weed management and soil fertility	Dr. Zahid Hussain	HEC	Completed	3.9 Million
85.	Management of wild onion and other associated weeds in chickpea for long term control policy in the southern districts of KP-Pakistan	Dr. Imtiaz Khan	HEC	Completed	1.48 Million
Entomology					
86.	Optimization of Environmental and Nutritional standards for mass production of mealworm under Tropical Environment of Pakistan	Prof. Dr. Sarzamin Khan & Dr. Amjad Usman	PSF	On-going	6.18 Million
87.	Strengthening Entomological Museum for the Identification of Cryptic Species of Lepidoptera: Pyrolidae from Pakistan using Integrative Taxonomy	Dr. Misbahullah & Dr. Kamran Sohail	HEC	Completed	0.5 Million
88.	Technology transfer to beekeepers by the establishment of a model commercial honey bee farm at the University of Agriculture, Peshawar	Prof. Dr. Sajjad Ahmad	R&D Endowment Fund, UAP	Completed	1.324 Million
89.	Management of <i>Parthenium hysterophorus</i> by Plant Competition and Insect Herbivorous, Khyber Pakhtunkhwa.	Dr. Naeem Khan & Dr. Amjad Usman	HEC	On-going	3.392 Million
Plant Pathology					
90.	Establishment of Informal disease free seed potato production system in KPK Province	Prof. Dr. Mohamad Arif	R&D Endowment Fund, UAP	Completed	1.41 Million
91.	Incidence characterization of Viruses infecting strawberry in Pakistan	Prof. Dr. Asad Ali	HEC	Completed	2.70 Million
92.	Commercialization of mushroom cultivar in Khyber Pakhtunkhwa	Dr. Sartaj Alam	R&D Endowment Fund, UAP	Completed	2.23 Million
93.	Evaluating nematocidal efficacy of Syngenta based unregistered Product "Coded" against plant parasitic nematodes in Citrus	Dr. Ishrat Naz	Syngenta Pakistan	On-going	2.855 Million
94.	Molecular Characterization of root knot nematodes (<i>Meloidogyne</i> spp)	Dr. Ishrat Naz	Syngenta Pakistan	On-going	5.5 Million

S.No	Title of Project	Principal Investigator	Funding Agency	Project Status	Amount
	parasitizing tomato and cucumber in selected districts of Khyber Pakhtunkhwa				
Faculty of Animal Husbandry Veterinary Sciences					
Livestock Management, Breeding & Genetics					
95.	Profiling the expression of OXTR at different stages of embryo Implantation in sheep uterus	Dr. Ijaz Ahmad	HEC	Completed	0.325 Million
96.	Change in the Milk Production and fat Content of local goat breed by inclusion of flaxseeds and sunflower seeds SRGP-HEC	Dr. Syeda Maryam Hussain	HEC	Completed	0.387 Million
97.	Evaluation study of L&DD NMDs initiatives since 2002 under ADP	Prof. Dr. Sarzamin Khan	ADP	On-going	9.883 Million
98.	Master training Programme for master trainers in dairy farm management	Prof. Dr. Syed Muhmmad Sohail	ADP	Completed	1.268 Million
99.	Balkhi sheep mutton production and quality improvement through testis mediated gene transfer (TMGT) transgenesis	Dr. Rajwali Khan	HEC	On-going	6.415 Million
100.	Enhancement of Genetic Gain in Damani Goat through introduction of Sannen Goat Blood using Assortative Mating and Marker Assisted Selection	Prof. Dr. Syed Muhmmad Sohail	PSF	Under Review	8.7 Million
101.	Establishment of Efficient Molecular Techniques for the Meat Samples speciation	Dr. Rajwali Khan	PSF	Under Review	5.895 Million
Poultry Science					
102.	Utilization of maggot meal as Animal Protein source in meat and egg type birds	Prof. Dr. Sarzamin Khan	PSF	Completed	2.7 Million
103.	Modification of egg cholesterol contents through plants	Prof. Dr. Naila Chand	PSF	Completed	1.5 Million
104.	Genetic improvement of selected indigenous Naked Neck by crossing with exotic poultry breeds of Rhode Island Red and Black Australorp	Prof. Dr. Sarzamin Khan	ALP	Completed	4.32 Million
105.	Evaluation of economic welfare and environmental aspects of naturally mated and artificially inseminated broilers breeders under cages versus floor systems	Prof. Dr. Sarzamin Khan	HEC	Completed	8.9 Million
106.	Exploring the potential of phytogetic growth promoters in broiler	Dr. Abdul Hafez	HEC	Completed	0.5 Million
107.	Optimization of environmental and nutritional standard for mass production of mealworm meal under tropical environmental condition of	Prof. Dr. Sarzamin Khan	PSF	On-going	6.18 Million

S.No	Title of Project	Principal Investigator	Funding Agency	Project Status	Amount
	Pakistan				
108.	Development of Phytprotease and its comparative assessment with different commercial proteases in poultry feed	Dr. Asad Sultan	PSF	On-going	6.2 Million
109.	Optimizing the inclusion rate of guar meal and canola meal in broiler and layer ration	Dr. Abdul Hafeez	HEC	On-going	5.4 Million
College of Veterinary Sciences					
110.	Molecular Epidemiology of Bovine Tuberculosis in Dairy Animal Dairy products & Human beings.	Prof. Dr. Umer Sadique	HEC	Completed	1.5 Million
111.	Isolation, identification & testing of pharmaceutically active antimicrobial metabolites from white flower plant mirabilisjalapa.	Dr. Shakoor Ahmad	HEC	Completed	0.37 Million
112.	Physio-chemical & hormonal effects of acupuncture combined with morphine & clonidine drugs to provide analgesia in goats	Dr. Zahir Shah	PSF	Completed	1.7 Million
113.	In vitro susceptibility test of enrofloxacin against E.Coli Strains	Dr. Ijaz Ahmad	HEC	Completed	0.45 Million
114.	Use of medicinal plant against Ectoparasites	Dr. Murad Ali	HEC	Completed	0.5 Million
115.	Molecular characterization of clostridium perferingen and development of toxoid vaccine	Dr. Sher Bahadar	PSF	Completed	2.278 Million
116.	Fertility determination of Achai Cattle spermatozoa using crocin and Salvianic Acid as extender	Dr. Zia Ur Rehman	PSF	On-going	2.793 Million
117.	Effect of different dosages of enrofloxacin on clinical efficacy and resistance developed against fowl Typhoid	Dr. Ijaz Ahmad	HEC	On-going	4.00 Million
118.	Molecular characterization of <i>Mycoplasma capricolum</i> subsp. <i>Capripneumoniae</i> Pakistan strain for the establishment of effective diagnostics and vaccines	Dr. Farhan Anwar	PAK-US	On-going	20.4 Million
119.	Exploring the invitro and invivo antibacterial role of herbal medicine (6-Gingerol) to treat mastitis in small ruminants	Dr. Arshad Zahoor	PSF	On- going	1.6 Million
120.	Molecular epidemiology of Mycoplasma Bovis for the establishment of diagnostic and	Dr. Farhan Anwar	PSF	On-going	6.3 Million

S.No	Title of Project	Principal Investigator	Funding Agency	Project Status	Amount
	vaccine.				
121.	Development of multi strains probiotics for the production of safe, antibiotic free and high quality poultry meat.	Dr. Sher Bahadar	PSF	On Going	7.0082 Million
122.	Molecular Characterization of Local Isolates of Mycoplasma Gallisepticum for the Development of Efficient Vaccine.	Prof. Dr. Umer Sadique	PSF	On Going	4.67 Million
123.	Towards antibiotic free treatment: role of hydroxamic acid in fungal and bacterial pathogens of poultry	Dr. Shakoor Ahmad	HEC	On Going	4.9 Million
124.	Development of Rapid Diagnostic Method and Identification of Vaccinal Candidates for the Control of Theileriosis in Ruminants	Dr. Murad Ali Khan	HEC	On-going	6.5 Million
125.	Development of Phyto-Protease and its comparative assessment with different commercial protease used in poultry feed production	Dr. Sher Bahadar	HEC	On-going	6.5 Million
126.	Green synthesis of selenium Nano Particles and their impact on meat and egg type birds	Dr. Riffatullah	PSF	On-going	2.00 Million
Department of Animal Nutrition					
127.	Optimizing the nutritive value of maize silage in relation to dairy cow performance and Milk quality	Dr. Nazir Ahmad Khan	PARC	Completed	3.49 Million
128.	Optimizing the utilization of Maize Silage in smallholder and commercialization of dairy and fattening rations in relation to feed use efficiency, animal performance and farm profitability	Dr. Nazir Ahmad Khan	US-Aid	Completed	3.31 Million
129.	Exploiting the genetic diversity of traditional and novel cultivar/germplasm of wheat to optimize the nutritive value of wheat forage and wheat straws for ruminant livestock in Pakistan	Dr. Nazir Ahmad Khan	International Livestock Research Institute (ILRI)	Completed	1.15 Million
130.	Optimizing the nutritive value and utilization of traditional and novel feed in livestock rations	Dr. Nazir Ahmad Khan	International Livestock Research Institute	Completed	0.602 Million
131.	Strengthening the analytical and research capacity of animal nutrition laboratory	Dr. Nazir Ahmad Khan	International Livestock Research Institute	Completed	0.602 Million
Faculty of Rural Social Sciences					
Institute Of Development Studies					

S.No	Title of Project	Principal Investigator	Funding Agency	Project Status	Amount
132.	Achieving SDGs Inclusive governance of urban water and sanitation	Prof. Dr. Inayatullah Jan	HEC	On-going	2.244 Million
Agricultural Extension Education & Communication					
133.	Assessment of professional competencies of extension workers toward poverty alleviation through sustainable agriculture in Khyber Pakhtunkhwa	Prof. Dr. Zafar Ullah Khan	HEC	On-going	2.735 Million
134.	Evaluating Pluralistic Extension services in Mountainous region of Khyber Pakhtunkhwa for sustainability of forest governance and management	Dr. Raheel Saqib	HEC	On-going	2.85 Million

Research Projects Achievements

Research and Integration Demonstration on Water-saving High-efficiency and Eco-friendly for Dryland Agriculture

The Principal Investigator of the project is Dr. Ishaq Ahmad Mian, Department of Soil & Environmental Sciences, and Co-P.I. is Prof. Dr. Bushra Khan, Department of Environmental Sciences, University of Peshawar. Prof. Enke Liu, Institute of Environment & Sustainable Development in Agriculture, Chinese Academy of Agricultural Sciences, Beijing, China is international collaborator partner. The project is sponsored by Pakistan Science Foundation & NFCC, China.

This project based on improving the water use efficiency and reduce the environmental cost caused by intensive crop production in dryland farming. Chinese Academy of Agricultural Sciences and The University of Agriculture, Peshawar will make their joint efforts in the research project for eco-friendly, water-saving and high-efficiency dryland agriculture technology integration and demonstration. The project will research and develop innovative technologies and existing technologies for rain-fed regions of Khyber Pakhtunkhwa, Pakistan.

PSF, Islamabad team visit project activities during September, 2022

Mycoplasma culture in broth

PSF Capacity building R & D activities with national stakeholders

Molecular epidemiology of Mycoplasma bovis local isolates for the effective diagnostics of bovine mycoplasmosis.

The Principal Investigator of this project is Dr. Farhan Anwar Khan, Associate Professor, College of Veterinary Sciences, The Project is funded by Pakistan Science Foundation. The research team has successfully isolated local M. bovis strain Full genome of Mccp Pakistan strain is expected to be completed by March, 2023 using Next Generation sequencing.

Developing aquaponics system to produce safe, organic food in a sustainable and environment friendly way

The Principal Investigator of the project is Dr. Masood Ahmad and Co-P.I. is Prof. Dr. Abdul Mateen Khattak, Department of Horticulture. The project is sponsored by US-AID Funded competitive grant system managed by PARC.

Aquaponics system is a combination of aquaculture (fish farming) and hydroponics (growing plants in water). Aquaponics is relatively new idea in Pakistan. However, there is a tremendous scope and potential for such a system on household and commercial level. Most of the successful work on aquaponics has been done in developed countries. Pakistan, like other developing countries, is facing food shortage problems among other calamities. The aquaculture (fish farming) industry of Pakistan is on decline due to scarcity of water and low income. In an aquaponics system, more vegetables or ornamental plants are produced in a short span of time compared to conventional production. In fact 80% of the income comes from plants and 20% from fish. In this system, no nutrients are supplied to the plants. Food is only provided to the fish, plants feed on nutrients secreted by fish. In this project, model Aquaponics system was established at Ornamental Horticulture Nursery. Lettuce and strawberries were successfully grown in hydroponics beds having grass and gold fish in the fish tanks. It was observed that the growth of grass fish was not satisfactory. It reveals that grass fish are not suitable in the confined environment of the fish tank rather it thrives well in an open fish pond. After consultation of the expert at the Fishery Department, Tilapia fish spp. was introduced into the fish tanks in relatively bigger size than fingerlings. The Tilapia and gold fish spp. were successfully reared in the confined fish tanks of aquaponics system and in response the desirable growth and production of strawberries, lettuce and beans sprouts as well as ornamental plants mainly marigold was achieved in hydroponics beds (in a soilless culture).

The leafy vegetables such as lettuce and sprouts of various beans were successfully grown in the hydroponics beds of the system. One M.Sc (Hons) student completed his research on production of strawberries in the aquaponics system and published it in the HEC recognized journal. Four B.Sc (Hons) students conducted their internship on various aspects of aquaponics. Workshops and trainings were also carried out for students, researchers and other stake holders.

Aquaponics system established at the Department of Horticulture, The University of Agriculture, Peshawar

PI of the project is briefing the students about growing plants in Aquaponics system.

P.I. briefing of students about Aquaponics Technology

Optimization of Production Technology and Value Addition in Tuberose

The Principal Investigator for the project is Dr. Masood Ahmad and Co-P.I. is Prof. Dr. Abdul Mateen Khattak, Department of Horticulture, The project is funded by Higher Education Commission, Islamabad.

Farming community of Khyber Pakhtunkhwa, especially those involved in the floriculture sector need awareness and new avenues for better livelihood with good living standard. There is a tremendous scope and potential for such a project on household and commercial level. It will not only help in optimizing production technology at field level but will also encourage the stake holders towards small agri-business in floriculture sector focusing on cut flower production and extraction of essential oil from tuberose and other aromatic and medicinal plants. The farmers/stakeholders will be trained in Tuberose flower and bulb production. They will be trained to grow tuberose following their specific production technology including time of sowing, seed rate, irrigation, fertilization and pesticides to be used for control of insect/pest and diseases, proper storage of bulbs, pre and post-harvest handling of flowers. The farmers/stake holders will also be introduced with the oil extraction machine/assembly and with practical demonstration of essential oil extraction process from tuberose flowers and other value added products of tuberose such as cut flowers, garlands and bouquets etc. It will help improving the livelihood of the community by establishing their own entrepreneurship with very good impacts on national socio-economic development.

Chairman Horticulture and Architect of the Aquaponics visit to the system

Tuberose research in field

Post-harvest/ vase life studies on Tuberose

Development of zinc oxide nanoparticles as a novel zinc nanofertilizer for sustainable agriculture and reducing zinc deficiency in Pakistan

The Principal Investigator of the project is Dr. Ishaq Ahmad Mian and Co-P.I. Prof. Dr. Muhammad Tariq, Department of Soil & Environmental Sciences & Co-P.I. Prof. Dr. Bushra Khan, Department of Environmental Sciences, University of Peshawar. The project objective is to investigate different Zinc nano particle's as a novel nanofertilizer that could supplement optimum Zn and improve Zn nutrition and crop productivity.

This project will utilize a novel and very effective zinc nanoparticle's technology to attain sustainability in crop production. In this regard, nanotechnology has aided the agrotechnological revolution, which has the ability to overhaul the resilient agricultural system while ensuring food security in the near future. As a result, nanoparticles are emerging as a cutting-edge material with the potential to transform current agricultural practices. Zinc oxide nanoparticles (ZnONPs) is one of the options to enhance the nutritional values of crops as some engineered nanoparticles (NPs) could be used as a fertilizer. ZnONPs fertilizers will provide Zn to plants or improve the effectiveness of fertilizers when used in small quantities. Increased Zn uptake can be achieved by encapsulating fertilizers in nano form, which decreases Zn loss, enhances crop quality and yield, and reduces the risk of environmental degradation. Zn packed in NPs improve the nutrient bioavailability and fertilizer use efficiency comparative to other conventional ions and salts.

Incidence and Characterization of Viruses Infecting Strawberries in Pakistan

The Principal Investigator of the project is Prof. Dr. Asad Ali, Department of Plant Pathology. The project was funded by the Higher Education Commission, Islamabad.

Strawberry is an important fruit among the berries. It is a rich source of vitamin C, Magnesium, Manganese and also contains phytonutrients like β carotene and Lutein-zeaxanthin. Many kinds of strawberry species grow wild all over the world. It is an important competitive crop. Strawberry are providing financial benefit roughly four times to that of sugarcane and nine times higher than wheat crop. Climate and soils of Pakistan are very conducive for the cultivation of strawberries which need low chilling temperature and can be cultivated in variety of soil types. In Khyber Pakhtunkhwa, (Charsada and Mardan) and Punjab (Islamabad, Lahore) it is harvested in early summer.

The main objectives of the project were to elucidate the incidence and prevalence of strawberry viruses in Pakistan, characterize the prevalent isolates infecting strawberries and to formulate an effective Integrated Disease Management package to manage viruses infecting the crop. The project revealed the etiology of viral diseases of strawberry, figuring out the complex of viruses involved and also gave clear picture of incidence of viruses in Khyber Pakhtunkhwa, Pakistan. The prevalent isolates have been characterized molecularly through coat protein encoding region sequences and were compared with the

available sequences in the GenBank elucidating their phylogenetic relationship with rest of the isolates reported across the world.

The research about the occurrence, distribution and genetic diversity of prevalent viruses that attack strawberries in Pakistan has been made much clear. This research will help the researchers and growers to adopt appropriate management strategies minimizing the impact of viruses and hence, improving the yield as well as germplasm production in the country. The runner producers will have the first hand knowledge of prevalent viruses in the area and will try their utmost to eliminate these from the germplasm. Mingora and Madayen provides 80 % of the strawberry germplasm (saplings) being grown all over the country. It will also help the breeders to design an effective and sustainable resistance strategy to protect strawberry crop against the attack of these viruses.

“Molecular Characterization of local isolates of *Mycoplasma gallisepticum* for the development of efficient vaccine”

The Principal Investigator of the project is Prof. Dr. Umer Sadique, College of Veterinary Sciences. The project was funded by the Higher Education Commission, Islamabad.

This study aims the “Molecular Characterization of local isolates of *Mycoplasma gallisepticum* for the development of efficient vaccine”. Chronic respiratory disease (CRD) caused by *Mycoplasma gallisepticum* is a serious infectious disease of poultry. The disease causes economic losses in the form of low hatchability, reduced feed conversion ratio, decreased egg production and dressing percentage of carcasses. Another major threat to the poultry industry is ban on the export of *M. gallisepticum* infected eggs and chicks. The disease has become the main hurdle for international trade as *M. gallisepticum* free status is the main concern of international market. Transmission of the organism occurs either horizontally or vertically. Birds of all ages are prone to the infection but young birds are more susceptible as compared to adults. The predilection site of *M. gallisepticum* is respiratory tract particularly tracheal epithelium, air sacs and may be extended to reproductive tract in adult birds.

Typical signs of the disease include conjunctivitis with frothy ocular exudates, nasal discharge, sneezing, coughing, open mouth breathing and swollen eye lids, etc. Diagnosis of the infection is traditionally based on isolation of the organism and serology. However each method has its own limitations. Routine culture procedures are quite laborious and time consuming and also there are chances of growth of other species. Serological techniques though quick to perform, but might have chances of false positive and false negative because of interspecies cross reactions. PCR has proved to be an excellent tool for rapid diagnosis which is currently adopted for diagnosis of MG. However complete eradication and control of the disease requires identification of indigenous strains prevailing in our region. Strain specific PCR is a good approach for characterization of the local strains. Accessibility to MG biologics will lead to characterization of local isolates, as well as help in development of effective kit and vaccine. This will ultimately lead to complete eradication and economy improvement.

Identifying Candidate Gene in Differentially Expressed Gestation Length in Different Sheep Breeds and Climatic Conditions through Transcriptome and Epigenetic Analysis

Prof. Dr. Sohail Ahmad, Institute of Biotechnology and Genetic Engineering is the Principal Investigator for three different research projects that are under progress in the Institute:

- i. Identifying Candidate Gene in Differentially Expressed Gestation Length in Different Sheep Breeds and Climatic Conditions through Transcriptome and Epigenetic Analysis
- ii. Genome-wide association studies utilizing next generation sequencing to identify potential genetic selection markers for economic traits in diverse sheep populations
- iii. Establishment of National Centre for Livestock Breeding, Genetics and Genomics (NCLBGAG) Sub-center AUP

Project activities and various research facilities developed under these projects are briefly discussed as under:

Twelve sheep breeds including 5 new varieties were identified and morphometrically defined. The breeds' specimens were collected from the field and stored under one roof but in separate cages at the University of Agriculture Peshawar. Each breed had 12 ewes and two rams. All of the rams were housed in its own home. At the station, various reproductive experiments were conducted, and their needs were fulfilled accordingly. The majority of the breeding trials were carried out towards the start of the breeding season.

Specimens from all breeds were sequenced for the whole genome. Two of the breeds' genome sequences were bioinformatically examined and uploaded to the NCBI data library for reference. A workstation for this purpose was purchased, installed, and is now operating in the in-silico lab. The gene sequence and the traits were linked to discover QTL markers in genome-wide association studies of diverse phenotypes. These studies are presently underway, and the 21 M Phil studies have been completed under the research projects.

Other experiments were carried out to investigate the difference reproductive features, and their transcriptomes have been obtained, and are ready for sequencing. Many activities were slowed by the COVID embargo, which hampered the sequencing and other services required by the project.

For genomic selection, indigenous cow and buffalo breeds (Azikheli and Achai) have been chosen. A letter of partnership has been signed with DG L&DD Research and Extension for this aim. The collecting of data is now underway. For genomic selection, indigenous cow and buffalo breeds (Azikheli and Achai) have been chosen. A letter of partnership has been signed with DG L&DD Research and Extension for this aim. The RFID technology is being used to collect data. The system will be

operational shortly. Field visits are now the most important activity for establishing characterization, performance, and association data analysis for discovering genetic markers in each breed.

Labs have been refurbished; facilities have been installed and brought to a fully working state with minimal biosecurity and biorisk. The installation of a solar system remedied the power outage problem. One of the labs qualifies a BSL-1 and second as BSL2 in status and function. All requirements for the purpose have been installed and brought to a fully working state with minimal biosecurity and biorisk. The power outage has been resolved through the installation of a solar system. In addition a third lab of in-silico lab has been also established with all the necessary elements. One of the lab has been supplied with the solar power backing system where all the times light is available and is facing no shortfall or interruption due to power failure. Both labs have biometric entry system installed for getting more precise entry and also serve as the future system of use and learning to the students working at the division.

For vegetative and fodder purposes, a hydroponic system is in place. At the University, there is one sheep house with capacity for 200 sheep heads. Cell culture and other biotechnology facilities have been built. The division also has one indoor lab aquarium with zebra fish.

Waste is one of the most substances for employees and the general public in any culture. The problem of garbage buildup is reaching dangerous proportions all across the world. In Pakistan, the situation is even worse, with no adequate disposal of trash from laboratories and clinical/medical labs other than dumping it in a landfill and mixing it with municipal garbage. All of these disposal methods have highly hazardous and dangerous implications. Incineration in a controlled atmosphere is the sole method for proper disposal. If not handled appropriately, it can endanger the life and health of the dealing worker/student as well as the community at large. Chemicals, glassware, plastics, and pathogens are among the elements present in lab trash and rubbish.

The Universities are characterized and graded by the quantum, type and function of labs it operates. The majority of the day is spent by students and professors engaged in various activities and experiments. Bachelor students are studying many tests, while postgraduate students are conducting various studies and trials. All of this results in a comparable quantity of trash creation. If this trash/waste enters the food chain, it becomes lethal to humans, animals, plants, and soil and environmental bacteria. Many health difficulties, particularly chemical, microbes and heavy metal toxicity, cause muscular, physical, neurological, and degenerative disorders akin to Parkinson's, Multiple Sclerosis, muscular dystrophy, and Alzheimer's disease in those who consume such food.

The University of Agriculture has got the facility of incinerator at IBGE through the installation of the incinerator sponsored by ABM. The machine is energy efficient, effective, and heavy duty machine worth PKR 2.5 million obtained under the project "Waste Disposal" led by Dr. Sohail Ahmad. The machine has the potential to cater to the disposal demands of the whole University, and so announced the expansion of this service to waste created in all labs at the University and will operate once a week.

In this regard, a training session will be conducted for the University's lab personnel, instructing them in the accumulation, sorting, and packing of lab trash before it is incinerated.

Development of water efficient hybrid wheat for Pakistan and China

The Principal Investigator for the project is Prof. Dr. Muhammad Arif, Director Farms. The project was funded jointly by Pakistan Science Foundation and National Natural Science Foundation, China. Recently, developed two-line hybrid wheat technology in China has brought a revolution in the field of agriculture, as they are proved to be high yielding, drought resistant and water efficient. This study aimed at evaluation of hybrid wheat lines developed by China in Pakistan for their adoptability.

Conclusively, the wheat hybrid lines showed remarkable potential of producing higher yield and rust and disease resistance. The row test trials showed an increase of 22.2–51.8%, while plot test trials showed 41.3–55.8% increase in grain yield as compared with local high yielding varieties. Similarly, the Ph.D and M.Sc. (Hons.) research studies which were conducted as part of the project also indicated an increase of 48.9 to 69.4% and 25.6% respectively, in grain yield of hybrid wheat lines as compared with local cultivars.

The collaboration between Beijing Engineering Research Centre for Hybrid Wheat (BERCHW) China and the University of Agriculture, Peshawar remained very successful for testing hybrid wheat lines for yield potential and resistance to drought and diseases. The project got the attention of national and international farming communities and media including news channels, online forums, blogs and websites. Furthermore, some international media agencies visited the project site and witnessed the on-ground situation, held interviews with Project Investigator (PI), Co-PI and local farmers and reported it accordingly. Some of the success stories published nationally and internationally and their links are given below: China Daily reported “China Hybrid Wheat technology bring hope for farmer in Pakistan”. Global time reported that “Hybrid Wheat a Success story from Pakistan” give production upto 6000 kg per hectuare. The drought and temperature are two important challenge for wheat production in Pakistan and China Hybrid Wheat give better yield.

Chinese deligation visited hybrid wheat trial at university research farm

‘Climate smart’ Agriculture for steering food security by fostering cropping intensity in seasonal gaps.

The Principal Investigator for the project is Dr. Muhammad Arif, Director Farm and Co-Principal Investigator Dr. Ishaq A. Mian UAP. The project was funded by US-Pakistan Centre for Food Security.

The experiment was conducted at the Agronomy Research farm of the University. Wheat-maize-wheat cropping pattern was followed for the experiments. The summer legumes were adjusted in the summer gap (the period after wheat harvesting up to sowing of maize) for grain, fodder and green manure purposes. Mungbean, cowpea and sesbania were used for grain, fodder and green manure purposes, respectively. A fallow was included in the experiment as control. Biochar was also applied to legumes at the rate of 0, 5 and 10 t ha⁻¹. Each plot of the previous legumes' experiment was split into four sub plots to accommodate four levels of N to maize crop. Maize was sown with four levels of N fertilizer (0, 60, 120 and 180 kg ha⁻¹) in mid July.

The results of the experiments revealed that previously grown legumes significantly increased plant height, grains ear⁻¹, thousand grains weight, grain and biological yield of maize crop. Previously grown sesbania crop proved superior as compared to other legumes and fallow plots. Similarly, application of biochar at the rate of 10 tons ha⁻¹ increased plant height, grains ear⁻¹, thousand grains weight, biological and grain yield of maize. Application of nitrogen significantly increased plant height, grains ear⁻¹, thousand grains weight, grain and biological yield. Application of 180 kg N ha⁻¹ produced taller plants, more grains ear⁻¹, heavier grains, more biological and grain yield in maize as compared to other levels of N and control.

Among different preceding crops, sesbania increased soil N, stover N and grain N content of maize. The effect of previously grown legumes was not significant on soil pH, soil EC, bulk density, soil Ca, Mg, Na and soil C content. Similarly, application of 10 tons biochar ha⁻¹ significantly increased stover N, grain N, soil C and soil N. Bulk density of the soil decreased with increasing biochar application. The soil pH, EC, soil Ca, Mg and Na content were not significantly affected by biochar application. Among different nitrogen levels nitrogen application at the rate of 180 kg ha⁻¹ significantly increased stover N and soil N. Grain N content were higher with all N application as compared to no N application. Soil pH, EC, bulk density, soil carbon, soil Ca, Mg and Na were not significantly affected by nitrogen application.

Quality Assurance

Quality Assurance in the University

The Quality Enhancement Cell (QEC) was established in the University under the directives of Higher Education Commission (HEC) in 2006. With the passage of time, responsibilities of the QEC increased manifold. Keeping in view the importance of the cell, the University's Syndicate acceded to upgrade the status of QEC to full-fledged Directorate of Quality Assurance (DQA).

The DQA is engaged in numerous indoor and outdoor academic activities i.e. self-assessment process, faculty and course evaluation, implementation of anti-plagiarism policy, institutional Performance Evaluation (IPE) process, facilitating in accreditation process, self IPE and postgraduate review. Currently, another task has been assigned to this Directorate that is research journals verifications and authentication for postgraduate students and faculty members.

Staff position of the DQA is as follows:

1. Prof. Dr. Muhammad Arif, Director
2. Mr. Muhammad Shahid, Additional Director
3. Mr. Muhammad Riaz, Deputy Director
4. Dr. Kamran Nawaz, Assistant Director
5. Ms. Sania Munir, Assistant Director
6. Dr. Waqas, Superintendent

The basic objective of the DQA is to ensure and enhance the quality of education to compete with counterparts within and across the boundaries. The Directorate is directly monitored by Quality Assurance Agency (QAA) of HEC on the basis of assigned targets/criteria.

Impact of Quality Assurance in the University

Quality Assurance Agency of the HEC annually assesses the performance of the QECs of Higher Education Institutes against defined parameters including Institutional Performance Evaluation, Programs Self-Assessment, Accreditation of various degree programmes, Postgraduate Review, functioning of Quality Assurance Directorate and implementation of HEC policies and criteria.

The Quality Assurance Directorate has developed a culture of quality education and research in the University. Most of the degree programs offered by teaching departments of the University in Agricultural and allied Sciences have been accredited by the relevant Councils. Teachers' Evaluation Analysis Reports help the teachers to improve their teaching skills.

Importantly, strict implementation of Plagiarism Policy, research work of the scholars, students theses and internship reports are put up for plagiarism test, which help in eradicating the cut-copy-paste culture from the University up to a greater extent. The authenticity of research journals is now verified by this directorate helping faculty and students to publish their work in good quality journals rather than substandard journals.

Membership of International Associations/Networks

The Directorate of Quality Assurance is linked with the Quality Assurance Agency of HEC, Pakistan. Moreover, the DQA has international memberships like Asia Pacific Quality Network (APQN), and the Talloires Network.

Undergraduate Programmes Review

The undergraduate programs review of all disciplines was conducted during February 09-11, 2022. Departmental meetings were arranged in consultation of the concerned Deans. During the meetings, Prof. Dr. Muhammad Arif, Director QA appraised the Deans and concerned Chairpersons about the importance of accreditation. He informed that one of the essential requirements of the University ranking is accreditation of degree programs. He assured of all possible support from the Directorate of Quality Assurance. Certain shortcomings were suggested for further improvement in the academic excellence. The Deans appreciated the efforts of Director QA for initiating this important venture and assured that they will pursue the matter with the concerned departments.

Accreditation Process

The Directorate of Quality Assurance is mandated to perform internal assessment through Self-Assessment Process to ensure Internal Quality Assurance. Similarly, external quality is ensured by Accreditation Councils.

The Accreditation Inspection Committee (AIC) of the National Agriculture Education Accreditation Council (NAEAC) team visited the University during October 11-12, 2021 for accreditation of B.Sc. (Hons) programs of the following disciplines:

- i. Agronomy
- ii. Plant Breeding & Genetics
- iii. Soil & Environmental Sciences
- iv. Human Nutrition (Quality Assurance & Accreditation Awareness Seminar)

Self-Postgraduate Program Review

In order to ensure the minimum criteria set by the Higher Education Commission (HEC), review of postgraduate programs (Ph. D, M.S, M. Sc (Hons), M. Phil and equivalent) is one of the significant annual activities of the Directorate of Quality Assurance (DQA). For this purpose, the following committee was constituted to thoroughly review and verify the record maintained by the

Departments/Institutes in line with the prescribed rules and regulations of the University and check list of the HEC.

- | | |
|--|------------------|
| 1. Director Quality Assurance (QA) | Team Leader |
| 2. Director Advance Studies & Research | Member |
| 3. Additional Director QA | Member |
| 4. Deputy Director QA | Member |
| 5. Deputy Registrar S-I | Member |
| 6. Assistant Director-I QA | Member/Secretary |

The committee held a series of meetings with all Chairpersons of Departments, Directors of institutes and HoDs along with relevant focal persons (FP) in the presence of the concerned Dean of Faculty during June 20 to 24, 2022.

Self-Institutional Performance Evaluation (IPE)

To review the University Portfolio Report (UPR) and evaluate the performance of institution against the set criteria/standards of Higher Education Commission (HEC) for the year 2021-2022, the following Self Institutional Performance Evaluation (SIPE) committee was constituted.

- | | |
|--|------------------|
| i. Director, Quality Assurance (QA) | Team Leader |
| ii. Director QEC, Brains Institute, Peshawar | External Member |
| iii. Director P&D | Member |
| iv. Additional Director QA | Member |
| v. Deputy Registrar (Services-I) | Member |
| vi. Deputy Director QA | Member |
| vii. Assistant Director-I, QA | Member/Secretary |

The committee conducted two days comprehensive activity during May 30-31, 2022. On May 30, 2022, the SIPE committee held series of meetings to review of University Portfolio Report, authentication of relevant evidences and evaluation of Institution's Performance against set criteria. The committee also visited various institutional infrastructures including main library, laboratories of various departments, class rooms, examination halls, students' hostels, etc. to review the facilities. On May 31, 2022, the SIPE committee held a series of meetings with the Administrative Heads, Chairpersons of Departments/ Directors of Institutes/ HoDs, groups of professors, Associate professors, Assistant professors, Lecturers and students of both genders at Bachelor/Master/Ph. D levels.

The issues, available facilities at the institution and standard of education were discussed in detail. The participants actively participated in discussions and exchanged their point of view for the improvement of the University. Most of the participants commended the standard of education and laboratory facilities while some of them raised the issues being faced by the students.

Training workshops organized

The Directorate of Quality Assurance organized the following training/workshops for the Chairpersons and Focal Persons.

S.No.	Title	Resource Person	Date
1.	How to prepare for IPE, Brush up your memory	Prof. Dr. Farman Ullah, Director QEC, Brains Institute, Peshawar	January 27, 2022
2.	Quality Assurance in Research – How to control Plagiarism	Mr. Imranullah Khan Marwat, Director QEC, Higher Education Department, Government of Khyber Pakhtunkhwa	March 30, 2022

University Sports & Extra Curricular Activities

Sport Facilities on Campus

The University has number of in door and out door sports facilities for the students on campus. The University provide outdoor sport grounds for the following games on the campus:

- Cricket
- Football
- Hockey

The University has state of the art newly completed Sports gymnasium with following indoor facilities for the student and staff of the University.

- Badmintons Courts
- Volleyball Court
- Basketball Court
- Table Tennis
- Squash Court
- Tug of War
- Carom Board
- Fitness Gym

The University sports directorate encourages students sports for healthy life extra curricular activities on campus. In this regard the University organized and participated in a number of sports events during period 2021-22. The detail is given below:

Sport Games Participated during 2021-22

	Topic	Dates Held	Organizer
Archery Championship	All Pakistan Intersarsity's Archery Championship	October 2021	HEC
Sports Gala	DVM Sports Gala	November 2021	Directorate of Sports, UAP
HEC Sports	Participated in Cricket, Football, Volleyball, Hockey, Athletic and Badminton (Zone B)	October 2021 to April 2022	HEC
Sports Gala	IBGE Sports Gala	December 2021	Directorate of Sports, UAP
Sports Gala	Agriculture Chemistry Sports Gala	December 2021	Directorate of Sports, UAP
Sports Gala	Horticulture Sports Gala	December 2021	Directorate of Sports, UAP

Sports Gala	Food Science Sports Gala	January 2022	Directorate of Sports, UAP
Sports Gala	Women Sports Gala	March 2022	Directorate of Sports, UAP
KP-Intervarsity Sports 2022	Participated in Cricket (Semi-Final), Volleyball (Semi Final), Foot Ball, Female Badminton (Quarter Final), Female Cricket (Semi-Final)	October 2022	KP Sports Directorate
KP-Intervarsity Sports 2022	Volley Ball Championship	October 2022	Directorate of Sports, UAP and KP Sports Directorate
Sports Gala	IBGE Sports Gala	November 2022	Directorate of Sports, UAP
Sports Gala	DVM Sports Gala	December 2022	Directorate of Sports, UAP

Sports Tournaments Organised/Hosted During 2021-22

Name of Activity	Title	Dates Held	No. of Participants	Sponsors
Archery Championship	All Pakistan Intervarsity's Archery Championship	October 2021	16 Universities across Pakistan	HEC
KP-Intervarsity Sports 2022	Volleyball Championship	October 2022	400 from all KP Universities	KP Sports Directorate
KP-Intercollegiate Sports 2022	Volleyball Championship	October 2022	200 to 400 from all KP Colleges	KP Sports Directorate

Glimpses of Sport Activities

Faculty of Animal Husbandry & Veterinary Sciences Sports Gala 2021

All Pakistan intervarsity Archery competition-2021, hosted by Directorate of Sports, University of Agriculture, Peshawar.

Girls Sports Gala 2022 for Female Students

University Squad during KP-Intervarsity Games 2022.

International Cricketer Fakhar Zaman Visit to the University

Winner of KP-Intersivity Volleyball Championship 2022 with the Vice Chancellor. The Tournament was hosted by the University of Agriculture Peshawar.

Opening ceremony of Annual Sports Gala 2022, Faculty of Animal Husbandry and Veterinary Sciences

KP-Intercollegiate Volleyball Championship 2022. hosted by the Directorate of Sports, UAP.

Institute of Biotechnology and Genetic Engineering Sports Gala

Chapter -6

University Developmental Projects

The University Developmental Projects are prepared and supervised during the implementation by the Directorate of Planning & Development (P&D). The P&D plays significant role in the overall physical and academic infrastructure development of the University. The role of P&D and function along with the ongoing projects are briefly reported below:

Role of P&D

- ▶ To plan for the development of University in line with the Federal and Provincial policy guidelines under the overall leadership of the Hon. Vice Chancellor and Statutory Bodies.

Key Functions of P&D

1. Assess needs and priorities of the University
2. Prepare and submit Plans, Concept Papers and Projects to the Governments as well as donor organizations.
3. Formulation of annual work plans and cash plans, as per requirement of the Planning Commission and Higher Education Commission for the developmental projects.
4. Ensuring effective monitoring & evaluation of developmental projects and programe.
5. Submission of Project Completion documents to the donor organizations.
6. Facilitate the donor organizations in project implementation and capacity building of stakeholders
7. Preparation and submission of reports to the management and organizations.
8. Maintaining liaison and coordination with the Provincial & Federal Governments
9. Facilitation in the policy dialogue on agriculture related issues and problems.
10. Developing & strengthening linkages with other Universities & Organizations inside and outside the country through MoUs.

List of On-going Development Projects 2021-22:

- I. Establishment of Technology Development Centre (TDC) at the University of Agriculture, Peshawar worth Rs. 1676. 911Million
- II. ADP funded project titled: “Support Value Chain in Agriculture Products through private enterprize development” worth Rs. 51.565 million
- III. ADP funded project titled: “Development of Onion and Tomato Pocket Areas in Bajaur and Mohmand Districts” worth Rs. 24.732 million

List of Development schemes proposed for 2021-22 budget

- I. Establishment of Institute of Sustainable Agriculture Development and Environment at Mardan Sub-Campus, The University of Agriculture Peshawar costing Rs. 590.780 million
- II. Improvement and Strengthening the Academic and Research Facilities at the University of Agriculture Peshawar costing Rs. 745.720 million
- III. Commercialization of Mushroom Technology through Outreach Program of the University of Agriculture Peshawar costing Rs. 36.00 million
- IV. Innovation and Process Optimization for Large-Scale Production of Olives and Other Horticulture Plants Using Micro-Propagation Techniques costing Rs. 50.00 million
- V. Establishment of State of the Art Speed Breeding and Plant Genotyping facility at the Institute of Biotechnology & Genetic Engineering, the University of Agriculture Peshawar costing Rs. 190.250 million
- VI. Establishment of Locust Management Centre (LMC) and Bio-Pesticides Laboratory at the University of Agriculture Peshawar costing Rs. 258.00 million.

Project Brief**Support Value Chain in Agriculture Products Through Private Enterprize Development**

The project titled “Support Value Chain in Agriculture Products through Private Enterprise Development” was approved by DDWP at the Cost of Rs. 51.565 million for period 24 months. After devolution of the Erstwhile FATA in to the newly merged districts the project was basically proposed to improve and strengthen Agriculture product lines in the seven newly merged districts of Khyber Pakhtunkhwa. The **Goal** of this specific project was to contribute in the economic growth and employment generation in newly merged districts of Khyber Pakhtunkhwa through capacity development and skills enhancement initiatives in selected horticultural product lines with establishing linkages towards private sector through enterprise development. This overall goal will be achieved through the following key objectives mentioned below:

- i. To create an enabling environment for the value chain actors;
- ii. To enhance capacities of value chain actors to ensure productive and profitable supply chains of the identified product lines;
- iii. To support and create backward and forward linkages among the value chain actors;
- iv. To establish agriculture processing Models in each Merged District

In order to achieve the project goal and objectives the base line study, farmer and extension worker capacity building through training, field days, seminar, workshop and installation of model processing unit in the new merged districts activities were envisaged for further develop the agriculture Sector in Newly Merged Districts of Khyber Pakhtunkhwa through value addition and enterprise development.

Financial Progress

Year	Year wise allocation (Million)	Releases	Utilization
2018-19	Nil	Nil	Nil
2019-20	Rs. 4.00	Rs. 4.00	Surrendered released amount
2020-21	Rs. 4.00	Rs.4.00	Rs. 4.00 Mn
2021-22	Rs. 17.415	Rs. 17.415	Rs. 10.045 Mn

Development of Onion & Tomato Pocket Areas in Bajaur & Mohmand Districts

The Project titled “Development of Onion & Tomato Pocket Areas in Mohmand & Bajaur Districts” was approved by DDWP at the Cost of Rs. 24.762 million for period of 24 months. The theme behind this project was to specifically train the farmers best crop production and management practices in onion and tomato production and value addition. Onion and tomato grower in the district Mohmand and Bajaur will be facilitated in the supply of quality inputs plus technical guidance at all steps through the platform of Farm Services Centers. With latest agriculture extension techniques like farmer field school (FFS), PTD and others the existing skills of the farmer organizations would be enhanced. Moreover the pocket areas will be linked with potential markets of the country so that farmers are able to fetch high prices for their produce. Since the products of pocket area would be of high quality, therefore special efforts would be made to export them to other countries and earn foreign exchange. To achieve the goal of the project, the following specific objectives would be realized:

- i. To create an enabling environment where farmers are given complete technology package to successfully grow onion in the area.
- ii. To ensure quality of the crop.
- iii. To provide required marketing channels for enhanced outcome.
- iv. To facilitate the farmers in arranging financial resources in accordance with the norms of the areas.
- v. To ensure maximum benefits to the farming community.

FINANCIAL PROGRESS

Year	Year wise allocation (Million)	Releases (Million)	Utilization (Million)
2018-19	Nil	Nil	Nil
2019-20	Rs. 3.00	Rs. 3.00	Surrendered all released amount
2020-21	Rs. 3.00	Rs. 3.00	Rs. 3.00 Mn
2021-22	Rs. 18.268	Rs. 18.268	Rs. 9.00 Mn
